Quarterly

Journal of the Indian Chemical Society.

Vol. II. 1925.

INDEX OF AUTHORS.

PAGE

Alimchandani, Rupchand Lilaram.—See Andrew Norman Meldrum.

Bahl, D. C.—See S. S. Bhatnagar.

Barat, Chittaranjan.—See Hemendra Kumar Sen.

Basu, Kalipada.—See Jnanendra Chandra Ghosh.

Bhatnagar, S. S., Mata Prasad and D. C. Bahl: The protective action of soaps and further evidence in favour of the chemical theory of adsorption 11

Bose, Prafulla Kumar: Thiodiazines, Part II. Condensation of ω-bromacetophenone with 4-substituted thiosemicarbazides. The constitution of thiosemicarbazides 95

Bose-Rây, Kshitish Chandra.—See Prafulla Chandra Rây.

Chakladar, Manindra Nath.—See Praphulla Chandra Guha.

Chakravarti, Gopal Chandra: Dyes derived from oxalyldibenzylketone. Part I. Azine and azonium derivatives ... 71

Chakravarty, Jogendra Nath.—See Jnanendra Chandra Ghosh.

Chakravarty, Khitindra Mohan.—See Jnanendra Chandra Ghosh.

Chaudhury, Subodh Gobinda.—See Jnanendra Nath Mukherjee.

De, Pran Kumar.—See Anukul Chandra Sircar.

Dey, Satis Chandra.—See Praphulla Chandra Guha.

Dhar, N. R.—See B. K. Mukerji.

Fox, C. J. J., and C. L. Mankodi: A note on an improved device for working a thermostat at low temperatures ... 292

Ghosh, Jnanendra Chandra and Kalipada Basu: Bromination of lactic acid and calcium lactate in presence of light ... 39

Ghosh, Jnanendra Chandra and Jogendra Nath Chakravarty: Dehydrogenation of methyl alcohol and formaldehyde with copper as catalyst. A study of the condition of the equilibrium in the system: $HCHO \rightleftarrows CO + H$ ... 142

PAGE

Ghosh, Jnanendra Chandra, and Khitindra Mohan Chakravarty: Catalytic formation of methane from carbon monoxide and hydrogen. Part I 150

Catalytic formation of methane from carbon monoxide and hydrogen. Part II. Production of fuel gases rich in methane 157

Ghosh, Jnanendra Chandra, and Jadulal Mukherjee: On photochemical reaction between bromine and tartaric acid in aqueous solution. Part I 165

Ghosh, Jnanendra Chandra, and Samarendra Gupta: The isomeric transformation of *allo*-cinnamylidene acetic and into the normal form with iodine as photo-catalyst 241

Ghosh, Jnanendra Chandra, and Rukmini Mohan Purkayestha: Photochemical reactions in circularly polarised, plane polarised and ordinary light. The velocity of reactions between bromine and cinnamic acid, and stilbene ... 261

Guha, Praphulla Chandra, and Sudhanya Kumar Ray: *ortho*-Amidophenylhydrazine and some interesting heterocyclic compounds derived from it 83

Guha, Praphulla Chandra, and Satis Chandra Dey: Hetero-ring formations with thiocarbohydrazide. Part II. Condensation with diketones and aldehydes 225

Guha, Praphulla Chandra, and Manindra Nath Chakladar: Dithiocatechol 318

Gupta, Samarendra.—See Jnanendra Chandra Ghosh.

Jain, M. P.—See N. A. Yajnik.

Karvé, D. D.: Investigation on the acid nature of some derivatives of sulphur, selenium and tellurium ... 128

Mankodi, C. L.—See C. J. J. Fox.

Meldrum, Andrew Norman, and Rupchand Lilaram Alimchandani: The reduction of the group—CH (OH). CCl_3. Part I 1

Menon, Bala Krishna.—See David Henry Peacock.

Mitter, Profulla Chandra, and Nirmalananda Palit: Condensation of amidines with ethoxymethylene derivatives of β-ketonic esters, β-diketones and cyanacetic ester. Part II 61

Moudgill, Kishori Lal: Travancore essential oils. Part VI. From *Cymbopogon Caesius*: Stapf. (*Inchi* grass) ... 23

Mukerji, B. K., and N. R. Dhar: The phenomenon of after-effect in certain photo-chemical reactions 277

Mukherjee, Jadulal.—See Jnanendra Chandra Ghosh.

Mukherjee, Jnanendra Nath: On the nature of hydrolytic adsorption with reference to the adsorption of electrolytes and of water. Part I. General and theoretical introduction 191

Mukherjee, Jnanendra Nath, and Subodh Gobinda Chaudhury: Variation of the charge of colloidal particles with concentrations of electrolytes. Part I. Arsenious sulphide sol and acids 296

Nath, Dina.—See N. A. Yajnik.

Palit, Nirmalananda.—See Profulla Chandra Mitter.

Peacock, David Henry, and Bala Krishna Menon: The preparation of methyl and ethyl iodides from the corresponding toluene sulphonates 240

Prasad, Mata.—See S. S. Bhatnagar.

Purkayestha, Rukmini Mohan.—See Jnanendra Chandra Ghosh.

Ray, Sudhanya Kumar.—See Praphulla Chandra Guha.

Rây, Prafulla Chandra, and Kshitish Chandra Bose-Rây: Varying valency of platinum with respect to mercaptanic radicles. Part II 178

Saha, Meghnad: The phase rule and its application to problems of luminescence and ionisation of gases ... 149

Sen, Hemendra Kumar, and Chittaranjan Barat: Reduction of symmetrical dichloracetone by yeast 77

Sen, Kshitish Chandra: Note on the permeability of membranes 289

Sharma, Ram Krishen: The relation between the surface tension and viscosity of liquids. Part I 310

Sircar, Anukul Chandra and Pran Kumar De: Studies in heterocyclic compounds. Part I 312

Venkateswaran, S. A critical study of the methods of analysis of lignin 253

Yajnik, N. A., M. P. Jain and Dina Nath: The influence of electrolytes on the solubilities of some organic acids ... 115

Journal of the Indian Chemical Society.

Vol. II, 1925.

INDEX OF SUBJECTS.

	PAGE
Acetone-4-methylthiosemicarbazone (Bose)	112
Acetone-4-phenylthiosemicarbazone (Bose)	103
1-Acetyl-4-phenylthiosemicarbazide (Bose)	102
5-Acetyl-2-anisyl-4-methylpyrimidine (Mitter and Palit) ...	67
5-Acetyl-2-β-naphthyl-4-methylpyrimidine (Mitter and Palit)	67
Acid nature of derivatives of sulphur, selenium and tellurium (Karvé)	128
Adsorption, chemical theory of (Bhatnagar, Prasad and Bahl)	11
Adsorption, hydrolytic, nature of (Mukherjee)	191
After-effect in photochemical reactions (Mukerji and Dhar)	277
2-Allylamino-5-phenyl-1:3:4-thiodiazine (Bose)	108
Amidines, condensation of, with ethoxymethylene derivatives of β-ketonic esters, β-diketones and cyanacetic ester (Mitter and Palit)	61
o-Amidophenylhydrazine (Guha and Ray)	86
1-o-Amidophenyl-4-phenylthiosemicarbazide (Guha and Ray) ...	91
3-Aminophenazine, 2-o-tolylthioureide of (Sircar and De) ..	318
Analysis of lignin, methods of (Venkateswaran)	153
2-Anisyl-4-methylpyrimidine-5-carboxylate, ethyl (Mitter and Palit)	65
Anisylidene-4-methylthiosemicarbazone (Bose)	113
Anisylidene-4-phenylthiosemicarbazone (Bose)	104
Benzene-o-disulphochloride (Guha and Chakladar) ...	328
Benzene-o-disulphonate of potassium (Guha and Chakladar) ...	327
Benzo-hepta-triazine (Guha and Ray)	90
Benzo-keto-tetrahydrotriazine (Guha and Ray)	90
Benzylidene-bromodithiocatechol (Guha and Chakladar) ...	333
Bromination of lactic acid and calcium lactate (Ghosh and Basu)	39
1-Bromobenzene-3:4-dithiodiglycollic acid (Guha and Chakladar)	332
1-Bromobenzene-3:4-potassium disulphonate, 1-Bromobenzene-3:4-disulphonyl chloride (Guha and Chakladar) ...	326

PAGE

1-Bromo-3 : 4-dithiocatechol (Guha and Chakladar) ... 335
Bromodithiocatechol diethyl ether (Guha and Chakladar) ... 331
Bromodithiocatechol thiocarbonate (Guha and Chakladar) ... 334
o-Camphoroylene-2 : 3-phenazino-iminazole (Sircar and De) ... 313
Carbon monoxide, chemical constant of (Ghosh and Chakravarty) 148
Catalytic formation of methane (Chakravarty and Ghosh) ... 150
Charge of colloidal particles, variation of (Mukherjee and Chaudhury) 296
Chloral urethylane (Meldrum and Alimchandani) 8
allo-Cinnamylidene acetic acid, isomeric transformations of (Ghosh and Gupta) 241
Dehydrogenation of methyl alcohol and formaldehyde (Ghosh and Chakravarty) 142
Dibenzoyl dithiocatechol (Guha and Chakladar) 330
Dibenzylidene-*o*-amidophenylhydrazine (Guha and Ray) ... 88
sym.-Dichloracetone, reduction by yeast (Sen and Barat) ... 77
Dichloral thiocarbamide (Meldrum and Alimchandani) ... 7
Dichlorethyl urethane (Meldrum and Alimchandani) ... 8
Dichloroethylurethylane(Meldrum and Alimchandani) ... 8
Dilchlorhydrin, allophanic ester of (Sen and Barat) ... 81
sym.-Di-$\beta\beta$-dichloroethylcarbamide (Meldrum and Alimchandani) 6
sym.-Di-$\beta\beta$-dichlorethylthiocarbamide (Meldrum and Alimchandani) 7
$\gamma\gamma$-Dichlorobutyric acid (Meldrum and Alimchandani) ... 5
Dihydroxyphenazinoquinoxoline (Sircar and De) 317
Dithiocatechol (Guha and Chakladar) 325
Electrolytes, adsorption of (Mukherjee) 191
Electrolytes, influence of, on the solubilities of organic acids (Yajnik, Jain and Dinanath) 115
Essential oil from *Cymbopogon Caesius:* Stapf. (Moudgill) .. 23
2-Ethylamino-5-phenyl-1 : 3 : 4-thiodiazine (Bose) 113
Ethoxymethylene derivatives of β-ketonic esters, β-diketones and cyanacetic ester, condensation with amidines (Mitter and Palit) 61
Ethyl ethoxymethylene malon guanidate (Mitter and Palit) ... 68
Ethyl iodide, preparation of (Peacock and Menon) ... 240
Formaldehyde, dehydrogenation of (Ghosh and Chakravarty) ... 142

PAGE

Fuel gases rich in methane (Chakravarty and Ghosh) ... 157
Glyoxal dibromodithiocatechol (Guha and Chakladar) ... 333
Heterocyclic compounds, studies in (Sircar and De) ... 312
Hydrolytic adsorption, nature of (Mukherjee) 191
Ionisation of gases and phase rule (Saha) 49
Isomeric transformations of *allo*-cinnamylidene acetic acid (Ghosh and Gupta) 241
4-Keto-2-amido-1 : 4-dihydropyrimidine-5-carboxylate, ethyl (Mitter and Palit) 67
4-Keto-2-anisyl-1 : 4-dihydropyrimidine-5-carboxylate, ethyl Mitter and Palit) 69
4-Keto-5-cyano-1 : 4-dihydropyrimidine, 2-phenyl-, 2-tolyl-, 2-β-naphthyl-, 2-anisyl- (Mitter and Palit) 62-64
2-Keto-3 : 4-diphenyl-2 : 3-dihydro-1 : 3-thiazole hydrazone (Bose) 100
—acetyl derivative (Bose) 102
—*iso*propylidene derivative (Bose) 104
2-Keto-3-methyl-4-phenyl-2 : 3-dihydro-1 : 3-thiazole hydrozane, anisylidene—, *iso*propylidene—, (Bose) ... 110-111
2-Keto-3-α-naphthyl-4-phenyl-2 : 3-dihydro-1 : 3-thiazole hydrazone (Bose) 109
4-Keto-2-naphthyl-1 : 4-dihydropyrimidine-5-carboxylate, ethyl (Mitter and Palit) 70
2-Keto-3-*o*-tolyl-4-phenyl-2 : 3-dihydro-1 : 3-thiazole hydrazone (Bose) 107
Lignin, methods of analysis of (Venkateswaran) 253
Luminescence of gases and phase rule (Saha) 49
Malon guanidic acid (Mitter and Palit) 69
Membranes, permeability of (Sen) 289
Methane, catalytic formation of (Chakravarty and Ghosh) 150, 157
3-Methoxy-6-$\beta\beta$-dichloroethyl-*p*-toluic acid (Meldrum and Alimchandani) 4
3-Methoxy-6-$\beta\beta\beta$-trichloro-α-hydroxy-ethyl-*p* toluic acid (Meldrum and Alimchandani) 3
4'-Methoxy-4 : 5-phenazino-2-phenylimiuazole (Sircar and De) 315
Methyl alcohol, dehydrogenation of (Ghosh and Chakravarty) 142
2-Methylamino-5-phenyl-1 : 3 : 4-thidiazine (Bose) ... 110
4-Methyl-2-aminopyrimidine-5-carboxylate, ethyl (Mitter and Palit) 64
Methyl-$\gamma\gamma$-dichlorobutyrate (Meldrum and Alimchandani) ... 6

PAGE

Methyl iodide, preparation of (Peacock and Menon) 240
2-*α*-Naphthylamino-5-phenyl-1:3:4-thiodiazine (Bose) ... 109
2-*β*-Naphthylamino-5-phenyl 1:3:4-thiodiazine (Bose) ... 110
2-*β*-Naphthyl-4-methylpyrimidine-5-carboxylate, ethyl (Mitter and Palit) 66
o-Nitrobenzylidene dithiocatechol (Guha and Chakladar) ... 330
1-*o*-Nitrophenyl-4-allylthiosemicarbazide (Guha and Ray) ... 92
Oxalobromodithiocatechol (Guha and Chakladar) ... 334
Oxalyldibenzylketone, dyes derived from (Chakravarty) ... 71
Pentavalent platinum (Rây and Bose-Rây) 179
Permeability of membranes (Sen) 289
Phase rule, its application to problems of luminescence and ionisation of gases (Saha) 49
2:3-Phenazinoiminazole, *o*-benzoylene, *o*-naphthoylene-, and *o*-diphenoylene— (Sircar and De) ... 314-315
4:5-Phenazino-2-phenyliminazole, and its 4′-methoxy-, 3′-nitro-, and 4′-dimethylamino derivatives (Sircar and De) 315-316
2:3-Phenazino-azoimide (Sircar and De) 317
2-Phenylamino-5-phenyl-1:3:4-thiodiazine (Bose) ... 100
μ-Phenylbenziminazole (Guha and Ray) 93
2-Phenylimino-1:2:3:4-tetrahydro-5-6:benzo-1:3:4-triazine (Guha and Ray) 91
4-Phenyl-1-*o*-phenylthiocarbamido-phenylthiosemicarbazide (Guha and Ray) 87
Photochemical reactions—
After-effect in (Mukerji and Dhar) 277
In polarised and ordinary light (Ghosh and Purkayestha) 261
Between bromine and tartaric acid (Ghosh and Mukherjee) 165
Platinum, varying valency of (Rây and Bose-Rây) ... 178
Reduction of the group $-CH(OH).CCl_3$ (Meldrum and Alimchandani) 1
Salicylidene-*o*-nitrophenylhydrazone (Guha and Ray) ... 93
Solubilities of organic acids, influence of electrolytes on (Yajnik, Jain and Dina Nath) 115

Substance PAGE

$C_{44}H_9O_5Cl_9$, $C_{12}H_{12}O_3Cl_4$ (Meldrum and Alimchandani) ... 4

Surface tension and viscosity, relation between (Sharma) ... 310

Thermostat, improved device for working at low temperatures (Fox and Mankodi) 292

Thiocarbohydrazones of phenanthraquinone, β-naphthaquinone, isatin, diacetyl monoxime, isatoxime, benzaldehyde, *m*-nitrobenzaldehyde, cinnamic aldehyde, salicylaldehyde, anisaldehyde, furfural, piperonal, acetone, acetophenone, benzophenone and methyl ethyl ketone (Guha and Dey) 230-39

3-Thioketo-1:2:4:5-heptatetrazine, acenaphtha-, alloxan-, camphor-, 6:7-diphenyl- (Guha and Dey) 228

Thioketo-bisdimethyltriazole (Guha and Dey) 232

Thioketo-bisphenanthratriazole (Guha and Dey) ... 233

Thioketo-bisisatintriazole (Guha and Dey) 234

2-Thio-1:2:3:4-tetrahydro-5:6-benzo-1:3:4-triazine (Guha and Ray) 89

2-*p*-Tolylamino-5-phenyl-1:3:4-thiodiazine (Bose) ... 105

2-*o*-Tolylamino-5-phenyl-1:3:4-thiodiazine (Bose) ... 107

Tri- and tetra-valent platinum (Rây and Bose-Rây) ... 179

Valency of platinum, varying (Rây and Bose-Rây) ... 178

Variation of charge of colloidal particles (Mukherjee and Chaudhury) 296

Velocities of photo-bromination (Ghosh and Purkayestha) ... 269

Velocity of reaction between bromine and cinnamic acid, bromine and stilbene (Ghosh and Purkayestha) ... 265

Viscosity and surface tension, relation between (Sharma) ... 310

Water, adsorption of (Mukherjee) 191
